<b>CAMDEN APPLICATIONS</b>			
3.1	134 Charing Cross Road WC2H 0LA 2015/6581/P <i>A1/Cardtronics UK Ltd.; New Wave Installations (agent)</i>	Installation of an ATM machine fronting Charing Cross elevation.	The CGCA is disappointed that the applicant installed an ATM in such proximity to the doorway to a block of residential flats (Sheldon Mansions). CPG1, 7.38 says that cash machines are only likely to be acceptable provided they are positioned sensitively and not be located where queuing could cause problems and with minimal amount of display material. Given that the ATM is just a few metres from the front door to the flats, queuing, particularly at night, would have an impact on residential amenity. See attached photo. ### WESTMINSTER APPLICATIONS

3.6	14 Greek Street London W1D 4DP 15/11234/FULL <i>Various/ Soho Estates Portfolio Limited; Gerald Eve (agent)</i>	Substantial demolition of existing buildings and redevelopment of site to provide a mixed-use scheme accommodating a new building comprising basements, ground floor & part eight upper storeys plus rooftop plant with frontages to Charing Cross Road and Manette Street; refurbishment of buildings on Greek Street; in connection with use of buildings for offices, retail, restaurants, art gallery/art education use, nightclub & eight residential dwellings; provision within basements of plant equipment, waste rooms & cycle parking; new public realm & pedestrian route through the site from Manette to Greek Street; associated external works.	<p>Whilst these proposals fall just outside the boundary of Covent Garden, the development will still have a dramatic impact on Covent Garden residents and the Covent Garden Conservation Area. Thus, the CGCA regrets some aspects of these proposals, particularly the loss of flats in Goldbeater Court and the increase of height and density within the Soho Conservation Area and adjacent to the Covent Garden Conservation Area, the Seven Dials Conservation Area and the Denmark Street Conservation Area. However, we recognise that the scheme falls within the Tottenham Court Road opportunity area that encourages such intensification. The CGCA supports the Soho Society's recommendations that would significantly improve the scheme and mitigate for some problems we have identified.</p> <p>We object to the significant increase in A3 within the West End Stress Area and should this be permitted the permission should be subject to core hours condition and completely restrict takeaway sales. The CGCA reminds officers that Soho and Covent Garden remain residential areas and, thus, these conditions are warranted to protect residential amenity.</p> <p>The closing off of the new pedestrian route between Manette Street and Greek Street at night should become a planning condition to prevent anti-social behaviour and crime.</p> <p>The footfall through the existing and additional Manette Street to Greek Street route will increase significantly as this becomes a gateway to Soho from Tottenham Court Road Crossrail station. The development must include the provision of public toilets to cater for</p>

			<p>this increase.</p> <p>It is recognised that the basement office space responds to the needs of creative businesses in the area who have been subject to loss of affordable workspaces elsewhere in Soho. To ensure these remain affordable, permission should be granted with the condition that the unit sizes remain small.</p> <p>Manette Street must remain accessible to vehicles.</p> <p>Comments by 27-01-16</p> <p>Photo: See documents</p> <p>Documents: <a href="http://goo.gl/JSQK0">http://goo.gl/JSQK0</a></p> <p>Note: 197 documents. 3.9	<p>24 Rose Street WC2E 9EA 15/11336/FULL</p> <p>A1 at ground; B1 on upper floors/<i>Shaftesbury; Rolfe Judd (agent)</i></p>	<p>Installation of two external condenser units within an acoustic enclosure at roof level of 24 Rose Street to serve both Nos. 24 and 25 Rose Street. Installation of steel safety balustrade at roof level.</p>	<p>The CGCA objects to the plant running 24 hours, 7 days a week. The commercial units for which these condenser units are proposed do not need to be cooled outside of business hours. Thus, the CGCA has no objection only if the following conditions are included:</p> <p>(1) require the applicant to ensure that equipment is kept working efficiently and is not causing disturbance to nearby residents, as verified through annual maintenance checks performed on all equipment, including ducting, throughout the life of the development (CMP S32);</p> <p>(2) require the applicant to submit the results of annual maintenance checks to the Council for approval;</p> <p>(3) restrict the amount of noise (measured in decibels) emitted from the</p>

			<p>units to within Westminster's thresholds (CMP S32);</p> <p>(4) limit the hours of use to 09:00-19:00 (or standard business hours), which will reduce the impact of noise and vibration on residential amenity during evening, late-night and weekend hours; and</p> <p>(5) require automatic time clocks to be fitted to the equipment/ machinery hereby approved, prior to commencement of the use of the units, to ensure that the plant/equipment does not operate at any time other than that permitted. The timer equipment shall thereafter be permanently retained and maintained and retained in accordance with the manufacturer's recommendations.</p> <p>Comments by 27-01-16 Photo: <a href="https://goo.gl/h8hWxf">https://goo.gl/h8hWxf</a> Documents: <a href="http://goo.gl/aFIGYU">http://goo.gl/aFIGYU</a></p>
3.10	<p>67 Drury Lane WC2B 5SP 15/11182/FULL A1; C3 on upper floors/<i>Really Useful Theatres Group Limited; John Rowan and Partners (agent)</i></p>	<p>Erection of an additional floor at fourth floor level to provide additional residential accommodation in connection with the use of the building to provide 6 x 2 bed units and 1 x 1bed unit. Alterations to mansard at rear third floor level and new window and door openings to side and rear elevations with balconies and Juliette balconies. Installation of new lift to fourth floor levels and air condenser units within an acoustic enclosure at roof level.</p>	<p>The CGCA maintains the concerns we had with the previous application (15/00955/FULL). Given that the Council granted permission for that application, after the applicant made significant revisions to the proposals, the CGCA reluctantly has no objection only if the conditions included with the permission for 15/00955/FULL are included with any permission granted for this current application.</p> <p>Comments by 27-01-16 Photo: <a href="https://goo.gl/g92TDs">https://goo.gl/g92TDs</a> Documents: <a href="http://goo.gl/05yLnP">http://goo.gl/05yLnP</a> Note: Application for 4<sup>th</sup>- floor, replacement of roof and additional changes on 23-02-15 agenda. 3.11	<p>33 Southampton Street WC2E 7HE 15/10015/FULL <i>Honest Burgers/Honest Burgers Ltd.; Firstplan (agent)</i></p>	<p>Alterations to shopfront.</p>	<p>The CGCA objects to proposed shopfront, as the design is out of keeping with the character of the rest of the building, neighbouring buildings and the conservation area, in which this property lies.</p> <p>We note that the applicant submitted multiple versions of the proposed elevation. Our comments relate to the most recent of these drawings, 4036665.</p> <p>As this drawing shows, the existing</p>

			<p>shopfront as well as the windows on the upper floors and the shopfront door (on the right) have arched windows. Thus, the proposed rectangular window sharply contrasts with the rest of the building, resulting in a jarring visual effect that is not appropriate in the conservation area.</p> <p>Westminster's planning policy (UDP Chapter 10, "Urban Design &amp; Conservation" and supplementary planning guidance "Shopfronts, Blinds and Signs - A Guide to their Design") states that alterations to shopfronts must:</p> <ul style="list-style-type: none"> <li>• Preserve and restore good surviving shopfronts of all periods, by retaining or reproducing them.</li> <li>• Ensure that any alterations to an existing shopfront preserve or enhance the character of the overall building.</li> <li>• Achieve imaginative, high quality modern shopfront-design which respects the architectural characteristics of existing buildings and adjacent areas.</li> </ul> <p>Notably, Chapter 10 "Urban Design &amp; Conservation," DES 5, "Alterations &amp; Extensions," says that, "Permission will generally be granted for new shopfronts to retail or similar premises open to the general public, in the following circumstances: 1) where they relate satisfactorily to the design of the upper parts of the building; 2) where they would not displace existing shopfronts which are locally distinctive or characteristic" (see p. 515).</p> <p>Further, 10.57 says, "Traditional shopfronts are features of historic buildings and of the townscape that should be preserved wherever possible. Replacement shopfronts should be designed and detailed so that the ground floor relates satisfactorily to the elevational design of the upper parts of the building" (p. 516). Additionally, 10.117 says, "In almost all circumstances, the removal of original shopfronts will not be acceptable. The City Council may seek to protect non-original shopfronts which make a significant contribution to the conservation area" (p. 533).</p> <p>The CGCA does not object to the proposed shopfront as shown in drawing 4036658, as this retains the</p>

For example, on 7 January, the applicant was using 18 chairs; on 11 January, 20 chairs were in use. The permitted (and proposed) number of chairs is 16.</p> <p>Thus, a condition or informative must be included in any permission granted that specifies that the applicant adhere to the conditions which apply to any permission granted at all times and does not put additional items on the pavement or expand the area of use for tables and chairs. Any complaints received over the next year will be taken into consideration in determining future applications for tables and chairs at this site. The situation will be subject to review in one year's time. Thus, a condition or informative must be included in any permission granted that specifies that the applicant adhere to the conditions which apply to any permission granted at all times and does not put additional items on the pavement or expand the area of use for tables and chairs. Any complaints received over the next year will be taken into consideration in determining future applications for tables and chairs at this site. 4.4	<p>8-10 Neal's Yard WC2H 9DP</p> <p>2015/7056/TC</p> <p>Compagnie Des Vins Surnaturel/</p>	6 tables and 12 chairs	<p>Whilst the CGCA has no objection to the continued use of 6 tables and 12 chairs at this location, we note that the applicant consistently uses more tables and chairs than permitted, as well as expands the area of use well beyond what Camden has approved. The attached photos offer proof of this.</p>

	<p><i>Monmouth Planning Ltd. (agent)</i></p>		<p>As a result, the applicant has left no space for pedestrians, including the many residents of Neal's Yard, who must use the pavement daily, to pass and, thus, they must maneuver around Neal's Yard. The CGCA reminds the Council that Neal's Yard is highly residential and local businesses must be mindful of and respect this, such as in the way they manage the use of tables and chairs.</p> <p>Thus, any renewed permission must include a strongly worded condition that specifies that the applicant comply with the approved layout and does not put additional items on the pavement or expand the area of use for tables and chairs. Any violation of this will result in revocation of permission for tables and chairs usage. Any complaints received over the next year will be taken into consideration in determining future applications for tables and chairs at this site. The situation will be subject to review in one year's time.</p> <p>Comments by 13-01-16</p> <p>Photos: <a href="https://goo.gl/Mf2rG5">https://goo.gl/Mf2rG5</a> &amp; <a href="https://goo.gl/B1heuJ">https://goo.gl/B1heuJ</a></p> <p>Documents: <a href="http://goo.gl/QTSy9i">http://goo.gl/QTSy9i</a></p> <p>Note: Renewal. <p>4.5</p>	<p>40 Great Queen Street WC2B 5AA 2016/0076/TC Philomenas/Mr Kieran Rice</p>	<p>3 tables and 12 chairs</p>	<p>The CGCA objects to tables and chairs at this location, as the applicant has consistently demonstrated an inability to appropriately manage the use of tables and chairs in such a way that complies with existing permission and that does not create an obstruction for pedestrians.</p> <p>This violates Camden's planning policy. CPG5.11 states that, "The area where tables and chairs may be placed must be designated and must not interrupt the area of footway for pedestrian movement."</p> <p>As the attached photos show, the applicant is using rope barriers without permission. These barriers are regularly positioned in such a way that pedestrians have very little space (much less than 1.8m) and at times have no option but to walk in the road. This is because the barriers extend well beyond the area of the public highway for which the tables and chairs are permitted and are positioned at an angle.</p> <p>The pavement on Great Queen Street is narrow until it reaches the applicant's property. At this point it widens. However, the position of the barriers essentially blocks pedestrian movement from the narrower pavement to the wider area. Additionally, Camden widened the pavement at the junction of Great Queen Street and Drury Lane not for the purpose of allowing businesses to commandeer more space for street furniture, but because pedestrian volumes warranted a wider space and additional public realm.</p> <p>Given the applicant's flagrant violation of existing permission and Camden's planning policies, permission for continued use of tables and chairs should be refused. Should Camden grant permission, this must only occur if strongly worded conditions are included that specify that the applicant adhere to the approved layout and does not put additional items on the pavement (including barriers) or expand the area of use for tables and chairs. Any violation of this will result in revocation of permission for tables and chairs usage.</p> <p>Comments by 03-02-16</p> <p>Photos: <a href="https://goo.gl/jL0gon">https://goo.gl/jL0gon</a>, <a href="https://goo.gl/PzpNEB">https://goo.gl/PzpNEB</a>,</p>

WESTMINSTER APPLICATIONS			
4.6	23 The Market WC2E 8RD 15/10644/FULL Shake Shack/ <i>Diverse Dining Ltd.</i> ; <i>Monmouth Planning Ltd. (agent)</i>	Variation of Conditions 5 of planning permission dated 24 November 2014 (RN: 14/01204/TCH) for use of the public highway for the placing of 16 tables, 46 chairs and seven parasols in two areas measuring 11.8m x 4.3m and 8m x 3.9m in connection with Unit 23 and Unit 24; Namely for the use of the pavement to continue until 30 November 2016.	Whilst the CGCA does not object to the location of the tables and chairs themselves, we note that the applicant does not manage customers' use of tables and chairs in line with existing permission. Given the large number of tables and chairs and the prominent location of the restaurant within the Piazza, the volume of customers consistently create a significant obstruction within and outside the Piazza. This results from long queues for ordering and picking up food that block the corridors around the Piazza, as the applicant uses a self-service window and counter, not table service. As the Council is aware, the Piazza experiences consistently high footfall and the applicants inability to manage customers going to and from the restaurant and the tables and chairs essentially paralyses pedestrian movement in this part of the Piazza. Also, the placement of the waiter station (without permission) means that when an employee is standing by it and customers are queuing to pick up their food, the pavement next to the Piazza is unpassable. (See photo.) The applicant should be required to submit a management plan to detail how they will ensure their customers using the tables and chairs do not create an obstruction for others in the Piazza. No objection provided the informative included with the current permission is continued with any renewed permission, namely that using more than the permitted number of T&CH would likely result in refusal for renewal. This is necessary given the applicant's history of putting more furniture on the pavement than permitted. Additionally, the CGCA would object to any extension of hours (currently M-SU 10:00-23:00); no proposed hours are listed in the application.
